25X1	6,	occupied to capacity by troops wearing red-bordered black epaulets with artillery insignia. Fifteen 85-mm AA guns were alined in the yard of the installation. Numerous trucks and sedans were seen through the open doors of the sheds. Trucks stood at the gate. that he saw the troops in the installation who, in spring, had departed for the troop training grounds. The AA aiming devices which were previously seen and had mobile miniature aircraft and parachutes for targets were again at their previous places. Small signal flags again were on the emplacements which, however, were still without guns. Small groups of soldiers were engaged in cleaning and reconditioning work all over the area, fixing fences and renovating sheds. In 15 Cotaban area, and the same area of the sheds. In 15 Cotaban area of the same area, fixing fences and renovating	25X1

25X1	9.	completed by the target date set, because all funds were spent. The troops received material from the construction bureau for two garages and an ammunition shed which are still to be completed. They were scheduled to be built by the troops. On 15 October, one building was occupied by about 80 soldiers wearing red-bordered black epaulets with artillery insignia, including about 30 soldiers of an advance party and 50 of a guard detail. Four 76.2-mm  AT guns and 4 trucks parked in the barracks area while 65 factory trucks stood in front of two buildings. On 13 October, 2 generals, 2 colonels and 3 lieutenant colonels who all had artillery insignia and were accompanied by Lieutenant Colonel Danilenko (fnu) and Lieutenant Colonel Thlopov (fnu) inspected	25X1 ] 25X1

25X1		the deforestation of the area began on 13 October and the special construction bureau in Eberswalde was responsible for the project.	
25X1	1.	Comment. In mid-October 1952, the Luftnachrichten Kaserne was probably occupied by the units of the 6th Gds Mecz Div which had been stationed there prior to their departure for the summer training. They included the division headquarters, the 35th Gds Mecz Regt, the 676th How Arty Regt, the 33d Gds Sig Bn, the 52d Gds RL Bn, the 22d Gds Engr Bn, and the 35th Tank Tng Bn. They would add up to a total strength of about h,had soldiers. It is, therefore, possible that small elements of the division are still at the Tamplin troop training grounds and, according to a report 500 had remained as a guard detail in Camp Kannenburg.	25X1 25X1
25X1 25X1		motor vehicle makes it appear as if units of the lith Gds AT Arty Erig (?) were temporarily stationed in the barracks installation, probably until the completion of construction in Army Clothing Depot I. The rocket launchers which resembled the German 6 and 8-tube rocket launchers were observed for the first time in East Germany. No previous information indicated discharges of trained soldiers at the Templin troop training grounds.  probably belongs to the Soviet Motor Inspectorate with the COFG or SCC which was previously stationed in Potsdam.  confirms the Ho 6th Gds Mecz Div in	25X1 25X1

25X1		believed stationed at the SS homing pigeon station. The 15 medium AA guns seen confirm a report has a seen who also saw 16 guns of this type with the AAA regiment of the 9th Gds Tark Div in Neustrelitz. It is possible that the AAA regiments of the tank and mechanized divisions have a battalion of four batteries with four medium guns to each battery in addition to 24 light guns.	•
